

Department: **EAL**- Lexia Reading Core5 and Lexia

What is Lexia:

Lexia is extremely effective in accelerating reading skills and closing the reading gap for those who have fallen behind. Lexia is a highly personalised reading program, older pupils can independently practice and master basic reading skills such as phonics, vocabulary and comprehension without embarrassment.

KS3 Overview:

Teaching in KS3 Lexia Reading Core5 provide, personalised learning to pupils in Yr7,8,9 and it provides them with abilities without impacting on teaching time and resources. Due to the computer led nature of the reading programme, explicit, systematic learning is delivered consistently. There are 5 Levels to be completed. For every successful completed Level, the pupils receive a Certificate.

How it's assessed:

Assessment without Testing: real time, actionable data is provided as pupils work independently. This informs planning and evidences the effectiveness of the intervention, allowing resources to be allocated appropriately. Pupils receive instant feedback as they progress through assigned activities.

Lexia Results:

- Lexia improves Reading Scores (R-Y9)
- Builds Early Literacy Skills
- Proven to close the Reading Gap
- Supports English Language Learners
- Helps older learners advance
- Benefits are tied to consistent usage (good implementation)
